## Communicating with Peers

### Practical Activity: Organization in the Hospitalization (Working with Nurses)

#### PRACTICAL ACTIVITY

- Problem addressed: organization in the hospitalization (working with nurses)
- Soft skill: solving conflicts, leadership, empathy
- Method: circles

It is developed as it follows: a person who acts as medical director or manager and the rest act as a nursing group. The objective is that the nursing group should state their reasons for transferring patients admitted to nursing controls other than theirs. The medical director will exercise empathetic listening, convincing the infirmary that many times the circumstances are not ideal, but they rule.
