Communicating with Parents

Practical Activity: Older child & non-supportive parent & supportive paediatrician

Problem addressed: older child & non-supportive parent & supportive pediatrician/GP

Soft skill: **Emotional intelligence**

Method: **Discussion, Problem-based activity**

- 1) Participants are asked to invent a parent typology based on their own experiences (group activity).
What kind of problems did they have, general impressions, experiences
- 2) Trainer talks about the existing typologies.
- 3) Participants discuss in small groups what's the average level of parent engagement in their practices.
- 4) How to communicate with the family to maintain parent engagement balance > make a list
