SELF - EVALUATION TOOL

“The little patient’s visit ...”

Reflecting on professional practice:

Please, after you read the Case Study, check it by a structured own debriefing asking you some questions about

-  setting
-  professionals / persons involved
-  events / actions

through the description of situation :

☞ What happened?

☞ Feelings - What do you think and feel about?

☞ Evaluation - What is good and bad about?

☞ Analysis - What else would you have done?

☞ Conclusions - What else could you have done in that situation?
